

Athletic & Recreational Custom Metal Buildings

Leaders in Athletic Facilities

Nucor Building Systems is an industry leader in the manufacture of pre-engineered metal building systems that are ideal for sports or recreational facilities. Our custom-designed, clear span systems meet all your needs for open playing fields, arenas and stadiums, as well as ancillary support spaces.

Design Flexibility

Metal buildings are a more economical solution for athletic facilities, gyms and other multipurpose spaces with large clear spans. Our unique TrussFrame system is capable of providing clear spans over 300 feet – a game changer for your athletic facility. The economical construction process can allow you to invest in additional facilities and amenities, such as an indoor pool or other extras. Overall, the affordability, design flexibility and energy efficiency of metal building systems make them a very appealing solution for athletic facilities.

Economical, Advanced & Expertly Built

Nucor's athletic and sports facilities are designed and built at the most economical initial construction and life cycle costs. Our advanced computer design technology speeds project completion time, provides fully predictable costs, and affords complete flexibility of building layout and appearance. As a leader in the metal building industry, NBS is represented by a network of Authorized Builders, each an experienced, highly skilled commercial Builder who can take single source responsibility for the success of every project.

The Highest Quality Standards

Nucor Building Systems is one of the first metal building companies to achieve IAS AC472 accreditation - the high quality standard certification program written specifically for the metal building industry. All engineering follows industry specifications and standards published by the American Iron and Steel Institute, Canadian Sheet Steel Building Institute, and the Metal Building Manufacturers Association. Our adherence to these standards helps ensure a safe, dependable metal building of the highest quality.

Fast, Cost-Effective Construction

Our goal is to provide the customized building solution that you're looking for while also minimizing the initial cost of your investment. Our advanced engineering capabilities provide innovative designs which are a fast, economical way to build your athletic or recreational facility. With our advanced technology and expertise, we're able to custom design, engineer and manufacture your project while simultaneously ensuring speedy delivery and erection - without increasing costs.
